#### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James A LaBarre (Reg. # 28,632) on 08 October 2008.

The application has been amended as follows:

In claim 19, lines 1-2, **change** "computer program product which is readable by a computing device to cause the computing device to perform a method according to claim 2" **to** "computer-readable medium storing a computer-executable program causing a computing device to perform the method according to claim 2".

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, see pages 5-6 of responds, filed 30 September 2008, with respect to the outstanding rejections under 35 U.S.C. § 101, 35 U.S.C. § 102(b), and 35 U.S.C. § 103(a) have been fully considered and are persuasive. While the Board did provide other arguments to support the rejections under 35 U.S.C. § 101 apart from the references to Applicant's statements in the Appeal Brief of 26 March 2007, Applicant's present amendments to the claims overcome the rejections under 35 U.S.C. § 101. Particularly, Applicant's amendments to independent claim 2 includes the language "reproducing the image from the reconstructed values of the individual pixels." Thus, the method of claim 2 generates a tangible output. Further, the Board held that dependent claim 6, as filed at the time of the Appeal Brief, contained allowable subject matter. By incorporating the subject matter from claim 6 into independent claim 2, along with the limitations from the intervening claims, and cancelling all non-allowable claims, Applicant has overcome the prior art rejections under 35 U.S.C. § 102(b) and 35 U.S.C. § 103(a). Therefore, the outstanding rejections under 35 U.S.C. § 101, 35 U.S.C. § 102(b), and 35 U.S.C. § 103(a) have been withdrawn. The application is now in condition for allowance.

### ***Allowable Subject Matter***

Claims 2, 3, 7-9, 11, 12 and 19 are allowed.

The following is an examiner's statement of reasons for allowance:

In the Board decision of 31 July 2008, the Board held that dependent claim 6 was allowable over the prior art. Applicant has incorporated the subject matter of claim 6 into claim 2, along with the subject matter of the intervening claims. Further, MPEP § 1214.04 states that the "examiner should never regard

such a reversal as a challenge to make a new search to uncover other and better references.” An updated search has not revealed any additional references which anticipate the claims and/or render the claims obvious to one of ordinary skill at the time of the invention. Additionally, Applicant’s amendments to claims 2 and 19 overcome the rejections under 35 U.S.C. § 101. Accordingly, claims 2, 3, 7-9, 11, 12 and 19 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
